PHOTOGRAPHIC WHITEWASH—*Suppressed Kennedy Assassination Pictures*. By Harold Weisberg. Hyattstown, Md. 296 pages. Paperbound. Typescript. \$4.95.

Weisberg, once a reporter for the News-Journal Papers, has published his third volume attacking the Warren Commission and what he sees as a gigantic coverup. Ah! credibility gap to Nth power.

His fourth — already written but not yet out — is sure to get sales. Its title: "CIA Whitewash: Oswald in New Orleans." When it comes out, the activity of D.A. Jim Garrison alope will guarantee sales.

But what about the third? Despite its title, it is short on pictures and rehashes a lot of material examined in the earlier two. The appendix reproduces a number of interesting documents — memos, shipping papers, routing slips and such generated by the various agencies.
